Introduction of Career English Program (Level 1) Career English Program (Level 1)の紹介

Students are eligible to enroll in the program if they obtain Level 1 on the placement test before their very first classes and on the achievement test at the end of each semester.

キャリアイングリッシュプログラムは入学時のプレースメントテスト、各学期末のアチーブメントテストでLevel 1を取得すれば、履修可能です。

Career English Program (Level 1)

Career English Program is a set of courses designed to help students improve their English proficiencies, leading to future success in their lives and careers.

To start, students take Four Skills and Labo Training 1 and 2. Upon completion, they have the option of furthering their English studies by taking elective courses, such as Domestic and/or Overseas Job Training, Translation, Writing, and so on.

Prerequisites and an Elective (必修科目と選択科目の紹介)

1. Four skills and Labo Training

Labo Training is a class designed to help improve students' TOEIC scores. While it may not be interesting, students can learn many important techniques.

Four Skills, however, is a class where students can truly explore their language abilities. Throughout the semester, students will have many opportunities to work on the four language skills: listening, speaking, reading, and writing. Different teachers bring a different flavor to the lessons. I strongly suggest the students to take a different teacher for Four Skills 1 and 2.

SHUM,
Davis

2. Global Perspectives

The focus of this course is comparing two great cities; Bath in the UK and Fukuoka. Weekly readings and presentations about the city of Bath are models of how to talk about and describe a city. Students write about Fukuoka with the aim of attracting English speaking tourists to visit. The course culminates in giving a presentation, in English, based on the work you do during the semester. The theme for the course and the presentation is, 'Introducing the Fukuoka to the world.'
